

I know that the FCC is proposing to expand the LPFM stations service to allow them priority over current FM translator service. I am a financial supporter and regular listener of the K-LOVE Radio Network. K-LOVE's music helps me to stay on a positive note throughout my day. I am constantly reminded of Jesus Christ's love for me by K-LOVE's D.J.s. The scriptures and song lyrics help me to remember that through Christ I can overcome all my hardships. K-LOVE is a viatal part of my life. If I were no longer able to here K-LOVE I would feel extremely dissapointed and discouraged, and I believe many other people in my community would feel the same way. My family values this radio station also. For example, my Mother has been listening to K-LOVE since its beginning in the 80's. My son struggles to go to sleep without this music playing, but when it's turned on he falls asleep very easily. It brings him peace. My children choose to listen to their "Jesus music" over other choices. I believe that the public wants K-LOVE to stay on the air just as I do. This station would not continue to be financially supported, and growing, if K-LOVE was not important to the public. Even if a person does not have a belief or relationship with Jesus Christ, K-LOVE is a better choice over secular stations because the conversation is positive. You will not find profanity, slanderous speech, sexual conversations, violent language, and overall inappropriate topics that are heard on most secular stations; however, the music is very modern and liked by people of all ages. This is a great place for kids and adults alike to tune in to. Thank you for your time and understanding.

Mrs. Katie Benson
